## Colour Coated Sheets

(Coils, Tiles Profile, Profile Sheets)

Elevate your projects with our top-quality colour-coated metal products. Our premium profile sheets, tile roofing sheets, and coils offer unmatched durability, weather resistance, and aesthetic appeal. Whether for roofing, cladding, or industrial and residential applications, our products deliver superior performance and lasting quality. Our colour-coated sheets are available in 0.3mm to 0.5mm thickness with customized colours to suit your specific needs.

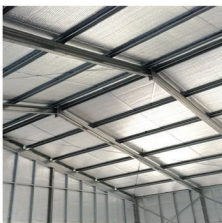

## Polycarbonate Sheets

(Compact, Embossed, Crystal Diamond sheet, Multiwall)

We offer wide range of products from solid compact sheets to embossed, crystal diamond, with customised profiles, and multiwall options, our products offer superior strength, impact resistance, and design flexibility. Whether for skylights, partitions, or architectural glazing, our polycarbonate sheets are engineered for high performance and maintaining UV protection. Available in 1-10 mm thickness with a range of colours including Clear, Bronze, Blue, Green, Greenish Blue, Opal White, Metallic Gray, Ice, Silver Gray, and Pencil Gray. Whether residential or industrial applications Polycarbonate Sheets adds more elegant look and allow proper ventilation.

### Other products:
